

# ATI PowerCone I-Series

## Protein Skimmer

Featuring several new cutting edge innovations, the ATI PowerCone I-Series Skimmer offers exceptional performance, unsurpassed efficiency and affordable pricing – making it a truly unbeatable value.

The design features a controllable pump that allows the user to adjust the flow rate of the pump. This one of a kind pump combined with the innovative Grid-Wheel impeller puts the ATI PowerCone I-Series in a class by itself.

**UNMATCHED PERFORMANCE:** The high volume of air flow combined with the Grid-Wheel impeller to chop it all up produces an incredible amount of tiny, waste removing bubbles – resulting in an extremely dense and uniform water-air mixture. And the design of the skimmer body also allows these bubbles to remain in contact with the water for a longer period of time resulting in a skimmer that easily outperforms much larger skimmers. The significantly higher surface area of the Grid-Wheel impeller also easily outperforms traditional needle-wheel impellers.

**UNMATCHED CONTROL:** Offers even greater flexibility and control by allowing control of the speed of the pump and consequently the amount of water and air entering the skimmer body. By comparison most other skimmers can only be controlled by adjusting the water level inside the skimmer body.

**ENERGY EFFICIENT:** Uses 35 watts of energy or less while pulling in 3000+ lph of waste removing air.

**STABLE PERFORMANCE:** Grid-wheel impeller produces consistent, long-term performance as it won't break apart and wear out like thread/mesh-wheel impellers.

**EASY TO USE:** Built-in water-level adjustment valve and controllable pump allow for easy and precise fine-tuning of the skimmers performance.

**QUIET OPERATION:** Produces minimal noise due to innovative pump and skimmer body design and built-in air silencer.

**EXCELLENT BUILD-QUALITY:** Constructed of high-quality materials and assembled using modern production techniques.

- Features:**
- I-Series Pump with Controller
  - Digital Air Flow Meter with LED Display
  - Grid-Wheel Impeller
  - Collection Cup
  - Built-in Water-level Adjustment Valve
  - Warranty: 1-Year Manufacturer's Limited Warranty

- Product Specifications:**
- Power Consumption: up to 35 watts
  - Air Intake: 3000+ lph (800+ gph)
  - Energy Efficiency: 90+ lph per watt
  - Installation: In-sump only
  - Recommended Water Level: Up to 9.0"

### ATI POWERCONE I-SERIES PROTEIN SKIMMER

Item #	Description	Length	Width	Height	Gallons	Retail
ATI0303	PowerCone 200 I-Series with Pump	8.7"	16.6"	20.3"	100-250	\$649.95
ATI0305	PowerCone 250 I-Series with Pump	10.0"	18.1"	21.7"	250-500	\$749.95

These are general guidelines only as many factors like stocking levels and types of fish corals can affect individual tank needs. Please contact your dealer if you need additional assistance in determining the right sized skimmer for your tank.

\*\*\* Patent pending for Grid-wheel technology under German utility model DE202010003425. International claim priority under the Patent Cooperation Treaty (PCT) still applies.

### PARTS AND ACCESSORIES

Item #	Description	Retail
ATI0403	I-Series Pump (PowerCone 200)	\$326.95
ATI0405	I-Series Pump (PowerCone 250)	\$326.95
ATI0409	Impeller Assembly (PowerCone 200)	\$53.95
ATI0411	Impeller Assembly (PowerCone 250)	\$53.95
ATI0413	Air Flow Meter (PowerCone 200 / 250)	\$53.95
ATI0415	Water Outlet (PowerCone 200 / 250)	\$39.95
